Fun toronto guide

If you're coming to Toronto for a visit or if you live full-time in the city, it's well worth your time to check the calendar to see what Toronto events are taking place during your free time. Toronto is home to a vast number of festivals and events that are known worldwide for being the biggest or best anywhere. While the city hosts a variety of international, multi-day or venue events, smaller, more locals don't even overlook, as they can be equally fun and entertaining. In the category of Big, people plan trips to Toronto exclusively for events such as the Toronto International Film Festival (TIFF), the Canadian National Exhibition (CNE), luminoato, the Toronto Outdoor Art Exhibition, Scotiabank Newt Blanche, Pride Toronto and the Beaches International Jazz Festival. Each of these festivals bring hundreds of thousands of visitors to the city to celebrate the uniqueness of some aspect of Toronto. There's a reason they're older — each of these events is world class and different — and they all justify a one-time appearance; You won't regret it! If big events aren't always your thing, there are small festivals and every week, year-round shows. Are you a foodie? How about a ribfest, or organic food fest, or gourmet food fest or even a garlic fest? Do you like music? There's jazz, classical, new and upcoming music and more. Is culture your thing? Celebrate Toronto's mosaic with Greek festivals, a festival like Muslim, Chinese, Indian, Polish, or Carrassauga, which celebrates in more than 70 different countries at the 30+ pavilion around Mississauga. Unlike the United States, with its 'melting pot', Toronto cultures remain much more isolated, and for some of the largest populations outside the home country with Toronto home, you can feel like you're on vacation around the world, without leaving home. Finally, although Toronto is known as a big city, it is surrounded by beautiful agricultural countryside, and is home to a variety of wonderful local fairs, celebrating many harvests. Step back from time to day when the biggest pumpkins and the best pie were the things that mattered and enjoyed fair that bring out locals and visitors alike. Toronto events are international and local, huge and small, but are all worth putting on your calendar! Observation decks and towers, points of interest and landmarks, architectural buildings historic landmarks, architectural buildings, specialty museums, castle arenas and stadiums, sports complexes adrenaline and extreme tours, zipline and aerial adventure park sports and recreation centers Sports and Recreation Centers Can be extremely cold in Toronto's winter, despite it being in the south of Canada.
